UKIAH REPUBLICAN-PRESS

MENDOCINO VALLEY SCENES — COUNTY BUILDINGS — MENDOCINO LOGGING AND COAST SCENES

VOL. XXIX. UKIAH, MENDOCINO CO., CAL.: FRIDAY, OCTOBER 22, 1904 NO. 16

REPUBLICANS AT MENDOCINO

The Republican speaking came off at Odd Fellow's hall Tuesday evening as advertised. A large audience assembled to listen to the three speakers of the evening, Messrs. W. D. L. Held, C. M. Mannon and Hon Geo. A. Sturtevant, deputy state attorney general, says the Beacon.

Mr. Held was the first speaker of the evening and began by saying that the only thing that he had found himself accused of thus far in the campaign was his youth. He said he had not heard before that it was a crime to be young, but he was growing every day and would eventually overcome the charge. He said that he did not care to be elected on the strength of the demerits of his opponents, that he was a native of California and a resident of Mendocino county, a thing at least one of his opponents could not say. No promises to a legal or any other boss had been made, he said nor was he a Southern Pacific candidate or pledged to that company in any way. He promised to originate and support all legislation meriting support and in his judgment constitutional, and would look carefully after the interests of Mendocino county. Mr. Held knew what he wanted to say and said it interestingly and said it in a way as to inspire confidence.

McKinlay at Napa.

During a residence of twenty-one years in St. Helena it has been our privilege to attend many political meetings here and elsewhere in Napa county, but never have we attended one where so much attentive interest was shown as the great McKinlay meeting Thursday evening of last week, says the Star. The opera house was crowded to the doors and that large audience of fully twelve hundred people manifeseed the deepest interest in the masterly discussion of political issues presented by Duncan E. McKinlay. The eloquent, forceful and logical words held the audience spell bound and not a man or woman left the hall during the hour or more that McKinlay spoke. The Republican nominee's address was free from all abuse and personalities. No reference was made whatever to Democratic nominees. The speaker merely laid before his hearers the record of the Republican party, logically presenting the issues of the campaign and appealing to the intelligent voters to support what that party has done and is doing for the benefit of the nation. Mr. McKinlay incidentally referred to his own candidacy and claimed support only as the nominee and representative of the great Republican party, promising if elected, to give to the people of the second congressional district, the state and nation, honest, faithful and energetic service.

A Great Meeting.

The Arena band, three big bonfires and a large audience greeted Hon. Geo. A, Sturtevant Friday evening when he spoke on the issues of the compaign. Mr. Sturtevant has greatly improved as a public speaker, says the Record, and the way he presented the much-talked-of trust question was convincing, forceful and eloquent and left no doubt in the minds of his hearers that President Roosevelt has never been guilty of lending aid in any way to unlawful combinations, but on the contrary was their dreaded enemy. Mr. Sturtevant is in a position to know and spoke from the heart. He gave credit where credit was due, and his speech was free from harshness—a fair presentation of facts as he believed them.

The speaker urged upon the voters to rally to the support of the people's candidate, and also give him a congress to aid him in carrying out his plans in bringing our country to greater prosperity and advancement

E. P. Gilmore was chairman of the evening and at the conclusion of Mr. Sturtevant's masterly address three hearty cheers were given for Roosevelt and Fairbanks and the Republican ticket.

McKinlay's Itinary.

Hon. Duncan McKinlay and attorney J. L. McNab will make a whirlwind campaign through Willits and Sherwood Monday. Mr. McKinlay will arrive Sunday night and with Mr. McNab will leave on a special for Willits. They will visit the camps at the mill and deliver addresses and then leave for Sherwood where several stops will be made. McKinlay is particularly anxious to meet as many laboring men as possible as he has been a laboring man himself and no one more thoroughly appreciates their needs than does he.

McKinlay and McNab will arrive from Willits on a special train about 6:30 p. m. and be met at the depot by the band and will be escorted up town by a procession of citizens. Monday night McKinlay and Thos. B. Dozier will address the voters at Marks' opera house. J. N. Rea will accompany McKinlay to Covelo where he will speak Tuesday night. They will leave for Willits on a special immediately after the meeting Monday night and there take a team for Covelo. Wednesday McKinlay will return and go to Lake county. McKinlay has displayed remarkable energy throughout the campaign and it is generally conceded that his majority will be one of the largest ever secured in this district.

At the Asylum.

Five canvas cottages have been erected at the Mendocino State hospital for the isolation and treatment of patients who are afflicted with consumption. Three of the cottages are fitted up with beds for patients, one for a dining room and another for a social hall. The open air treatment for the unfortunate who are suffering with this dread disease has proved to be very effectual in other places and will be given a trial here.

Work on the new connecting building between the administration building and the old ward buildings is under way. The concrete foundations are nearly complete. Work has been delayed on account of the recent heavy rains and also owing to the non-arrival of building materials. With the continuance of the present weather the work was rushed rapidly ahead.

Woman Baffles Hoboes.

Arthur Nolan's house situated on the main road just this side of Cuffey's cove, was robbed last Tuesday in broad day light. Mrs. Nolan has been with her mother for a few nights and the house has been left without occupants during that time. On her way home she met three suspicious looking individuals and upon reaching the house she found a considerable amount of household goods missing and evidence that the house had been ransacked. Mrs. Nolan at once jumped into her buggy, whipped up the horses and overhauled the Weary Willies, demanded her stuff and got it. One of the men carried a rifle but made no attempt to use it. Mrs. Nolan is now considered the heroine of the hour.

Child Died in San Francisco.

Arthur, the little son of Mrs. Allie Mohr, and grandson of Mr. and Mrs. Thos. W. Cox, of this city, died in San Francisco, September 8th, '04, after an illness of two months. The funeral was held from the home of his grand parents, Mr. and Mrs. H. A. Steffens, 1808 Larkin st., interment I. O. O. F. cemetery. He was born in Ukiah, August 3rd, 1903.

Murray-Markwell Nuptials.

Bertie I. Murray and Franklin P. Mackwell were married in the parlors of Hotel Cecille Monday by Rev. W. E. Woodward. They left on the afternoon train for the southern part of the state where they will spend their honeymoon.

John R. Skiffington was over from Melburne Tuesday.

A FEW MORE ARE NAILED

Bell Again Wields the Hammer--This Time It Is for Himself.

(From San Francisco Call.)

On the Southern Pacific train between Sacramento and Suisun Sunday forenoon Theodore Bell, the Democratic nominee for congress, confessed in the presence of witnesses that he was sailing under false colors. He acknowledged when called to account by Congressman James McLachlan of the seventh district, that all the California Republican members of the house of representatives voted against the Cuban reciprocity bill except Victor H. Metcalf, who was absent by reason of sickness. Bell also reluctantly admitted that the appropriation of $4000 for the Napa river and $22,000 for the Sacramento river was allowed by Major Heuer, the United States engineer.

The Democratic nominee was so rattled by the incident that on leaving the main train to change for Napa he inadvertently took away Duncan E. McKinlay's valise, leaving his own in the car. It required a deal of telephoning on the part of McKinlay to get back his valise. When Bell entered the car he took a seat alongside of McLachlan and the two entered into conversation. As the talk went on McLachlan said to Bell:

"I see that for the last three weeks the newspapers in your district which are supporting you have been asserting that you were the only reprdsentative from California who voted against the Cuban reciprocity bill. Now, Bell, you know that that statement is false and that all of the Republicans from California in the lower house voted against the bill, with the possible exception of Metcalf, who, I think, was absent and not in his seat when the bill came up for passage."

Bell replied: "Yes, that is true."

Whereupon McLachlan said; "Bell, you know that it is sailing under false colors, and why have you not corrected such statements?"

Upon which Bell changed color and made no reply. Further McLachlan said to Bell: "You and your friends are claiming that you secured the appropriations for the Sacramento and Napa rivers. Now, you know that is incorrect. You know that neither you nor any other congressman from California secured any appropriation for such purposes."

Bell replied that he did secure such appropriations.

Whereupon McLachlan stated: "You know that I was a member of that committee, and that the only appropriation recommended by that committee and passed by congress was a general appropriation of $3,000,000, to be expended under direction of the secretary of war in emergency cases. And you further know that the appropriation of $4,000 for the Napa river and $22,000 for the Sacramento river was upon the suggestion of Major Heuer, and that you had nothing to do with it."

Mr. Bell admitted such to be the truth.

The conversation on the train took place in the presence of several witnesses, among whom were J. W. Cavanaugh, Thomas Dozier and the Republican nominee, Duncan E. McKinlay.

The Republican state central committee has noted from time to time that the Democratic newspapers in the second diitrict claimed that Bell alone of all the California congressmen voted against Cuban reciprocity and that Bell was entitled to credit for obtaining appropriations for the Napa and Sacramento rivers. The Republican orators produce the record to show that the claim of the Democratic editors has no foundation in justice.

At the outset of the campaign the Call stated the simple truth—that the only measure of legislation accomplished by Bell was the ammendment abolishing the canteen at the State Soldier's home, and for that achievement the prohibition press of the country has given him all the credit he desires.

He introduced many bills, among them the notorious Round valley bill. Facts are coming to light which create the suspicion that the bill was originally presented by Bell was a monstrous land grab.

United States Senator George C. Perkins was amazed yesterday when he was shown a stenographic report of Congressman Bell's speech at Woodland last Saturday night, wherein the latter took unto himself sole credit for the congressional legislation which authorized the building a collier at Mare Island navy yard.

In order to get the exact language of Bell in his talk on the tariff question, the Republican state central committee engaged a stenographer to take down his words. The reference to the collier occurs in the Woodland speech. After citing page 2572 of the congressional record Bell said:

I felt it would be the proudest move of my life if I could obtain for the people of Vallejo and the people of the entire state what we had been striving to obtain for the past twenty years—a modern steel vessel to be constructed there—and after having obtained this through my own efforts I protest against any man or any paper attempting to steal the credit for some other man.

The record now in possession of The Call will show who is attempting to steal credit from another man.

To Senator Perkins it was frankly said: "Senator, Congressman Bell claims the credit for the legislation which gave the building of a collier to the navy yard at Vallejo. You know the real facts. If the credit belongs to Congressman Bell The Call will give it to him. Let us have the truth.

"The facts are these," replied Senator Perkins: "I obtained the senate amendments to the House bill authorizing the construction of two colliers at the navy yards—one on the Atlantic and one on the Pacific coast. I went to the members of the house committee on naval appropriations. I asked Foss, Dayton and Meyer to put the provision in the bill but the committee and the house failed to do so. When the bill came to the senate it was referred to the committee on national affairs. I am the second member of that committee. With the assistance of Senator Martin of Virginia I got the amendment in. Senator Hale of Maine was not inclined to favor it. He cited the battleship Texas as an example of navy yard construction. However, the senate amended the bill and authorized the construction of two colliers at the navy yards—one on the Atlantic and one on the Pacific. The bill went to the house, and the house refused to concur in the senate amendment. A conference committee over the disagreement was the result. The senators appointed to the conference were: Hale of Maine, Perkins of California, Martin of Virginia. The representatives were: Foss of Illinois, Dayton of West Virginia, Meyer of Louisiana.

"Personally I urged the members to support the senate amendments and the conference committee reported in favor of retaining it. I went to representative Gillett and others and asked them to stand in and adopt the report of the conference. Gillet was ready to make every effort to secure adoption, but the report was adopted without opposition. Look at the congressional Record to verify my statements."

The congressional record, Wednesday, Arpril 20, 1904, page 5425, clearly sustains the position of Senator Perkins. The indelible record is that the senate amendment which Senator Perkins introduced prevailed. Here is an extract from the congressional record in which the action of the house in receding from its disagreement is clearly reported:

Mr. Dayton—Mr. Speaker, I simply call attention to this fact because I have a desire that these colliers shall be built because they are desired by the department now.

The speaker—It seems to the chair the gentleman has got in his speech. The question is on agreeing to the motion of the gentleman from Louisiana (Mr. Meyer) that the house do recede from its disagreement to the senate amendment and concur therein.

The question was taken and the speaker announced that the chair was in doubt.

Mr. Foss—Division, Mr. Speaker.

The house accordingly divided and there were—ayes 118, noes 57.

So the motion to concur was agreed to.

Mr. Foss—Mr. Speaker, I ask if there are any other amendments?

The speaker—This disposes of all the amendments.

Congressman Bell's attempt to appropriate to himself the credit for this legislation is the rawest sample of political work ever exhibited in California. Bell made speeches in support of the measure as early as February 25, but the speeches were of no force or effect in the house. The amendment which prevailed was introduced in the senate, passed by the senate and went to the house where it was concurred in on April 20 as a senate amendment.

Darby a Benedict.

J. D. Darby and Mrs. Jocie Cooley sprung a genuine surprise on their friends last Wednesday when they slipped quietly into town and were wedded at the parsonage of the Methodist Episcopal church by Rev. Woodward. The most surprised of them all was the editor when the genial colonel stepped in and asked him to act as best man, stating that he could trust so important a secret with no one but a newspaper man. (Our surprise was due to the fact that we had never before seen a man who would trust an editor with or for anything.)

Mr. and Mrs. Darby took the south bound train and got out of town before the editor could get the news properly scattered, consequently they were not the recipients of as much rice as was intended. The bride is a popular resident of Hemlock and the groom is a wellknown Coyote valleyite and THE PRESS joins their many friends in wishing them a long and happy married life. May their only cares be little ones. The happy couple will spend a few weeks visiting in the southern part of the state before returning to their home in Coyote valley.

A Campaign Fake.

An attempt has been made by some of the papers in the county representing Flanagan to do small politics in connection with the Pudding creek bridge alleging that it is not built according to contract and trying to lay the blame on Supervisor Barnard. There appears to be no truth whatever in the story and it is being warmly resented by the citizens of the fourth district who realize that Supervisor Barnard is the best supervisor the district ever had. A letter from Mr. Healey, one of the contractors, appears in another column and fully explains matters.

Engineer Resigns.

H. Ferguson has resigned his position at the electric light plant after successfully handling it as engineer for several months. Mr. Ferguson intends to remain here and will probably engage in business. Mr. Conroy, of Albion, has accepted the position and is now in charge.

GOT MONEY FROM HOME

Sixty-one years ago W. P. Miller, now resident of Fort Bragg, was born in Denmark. At the age of 14 he left his home and came to the United States, leaving in Denmark a father, mother and eleven brothers and sisters. Twenty-four years ago his mother died and six years later his father, who possessed two farms, which he left to be divided equally among all the children, says the Mail.

Mr. Miller's share was deposited in the bank to draw interest. Mr. Miller, thinking that it would not amount to much, advised his sisters to take and use it.

Some six years ago he was advised by a sister who resided in one of the eastern states that the money was still in the bank. Thinking nothing more about the matter, he went from San Francisco to Redding, thence to Fort Bragg. In the meantime an attorney was sent from the east to look him up. Failing to find Mr. Miller, he returned east, leaving a letter, fully explaining everything. A short time ago, Andrew Peterson, a blacksmith of Mendocino county, overheard a conversation at 25 Post street San Francisco when this was being discussed.

He informed those present of the whereabouts of Mr. Miller. A few days since Mr. Miller was fully advised in the premises, and learned that the amount deposited with interest amounted to the nice sum of fourteen thousand dollars, a pretty sum for a man of 61. May he live long to enjoy it. Mr. Miller has been well off in his day, and was an extensive contractor with Uncle Sam in carrying the mails.

At The Opera House.

Gorton's minstrels played to a full house Friday night and the troupe is generally admitted to be one of the best that ever visited this city. Manager Saunders of Marks' Opera house is thoroughly awake to the requirements of the public and it is due to his efforts that the company was secured. He has a number of others equally good engaged and reports that the big Elleford company will hold the boards for one week early in December. This company is one of the best on the road.

Realestate Sales.

Since closing the sale of the Preston ranch to C. C. Smith for $29000 with stock, Rothermel & Co. have sold to the same party the Stanley farm of 240 acres owned by Robert Clippe; consideration $8000. And also the stock ranch of 4240 acres near Willits from Chas. Hermann to J. D West of San Froncisco for $18,000 who intends to move onto the ranch next spring.

Buncoed by a Medium.

Suit has been commenced in San Francisco by Mrs. Elizabeth L. Newell against a medium named Young and her husband. Mrs. Newell alleges that the Youngs influenced her to buy shares in an alleged graphite mine near Point Arena and that the mine failed to pan out. The wraith of a departed Indian chief was the alleged discoverer of the mine.

Republican Prices.

Professor Flowers is very much pleased with the wool outlook. He disposed of his fall clip in San Francisco this week for eighteen cents. The professor owns a fine ranch near Littleriver. Mr. Studebaker of Anderson valley now has charge of it.

Will Wed.

A marriage license was issued by Clerk McCowen this week for Scott Martindale and Miss Ida Curtz, both popular residents of Long valley.

Fort Bragg Wins.

The case of the city of Fort Bragg v Kemppe & Mann came up in the superior court this week. The demurrer was denied.

In testimony whereof we have hereunto set our hands and caused the seal of the Board of Supervisors of Mendocino County, California, to be affixed at the Town of Ukiah City, this 15th day of October, 1904.

L. BARNARD.
Chairman of the Board of Supervisors of Mendocino County, California.
Attest: HALE McCOWEN, Clerk.
By C. E. Ganter, Deputy.

Will be paid by the World's Dispensary Medical Association, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 13 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not for a long time bear any solid food in my stomach; felt melancholy and depressed. Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

A man can succeed and be strong if he heeds Nature's warnings. When there is indigestion, loss of appetite, ringing in the ears, dizziness, spots before the eyes or palpitation of the heart; any or all of these symptoms point to weakness and loss of nutrition. Dr. Pierce's Golden Medical Discovery is the medicine to turn to.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and all other narcotics. It is strictly a temperance medicine.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

OBESERVED "SHEKEL DAY."

New York, Oct. 18.—Five thousand Jews have observed in this city the third "Shekel Day" of the Zionist movement in the United States by paying a fee of 25 cents and enrolling themselves as members of the association. Two thousand new members were enrolled at the Zionist headquarters and 3000 additional names were received by 100 young men, who canvassed the whole of Greater New York with membership slips. The registration of the name and the payment of the fees confers the franchise to vote for delegates to the next Zionist congress. The total membership here is about 10,000.

LATE NEWS IN BRIEF

Utica, N. Y.—E. D. Fulford, champion trap shot, died Saturday of pneumonia.

Marseilles.—The coal heavers, who have been on strike for nearly two months, have agreed to resume work on the employers' conditions. This brings the great dock workers' strike to an end.

Newport News.—Two of the lake submarine torpedo boats, built at the shipyards here and believed to be destined for the Japanese or Russian governments, were hoisted on board the Kennebec Saturday.

Washington.—To allow an intending bidder more time to complete his estimates the bids for the completion of the dry dock at Mare Island, which were to be opened Saturday, will not be opened until October 29.

Berlin.— The emperor's appointment of Captain Franz to be inspector of coast artillery and submarine mines, which is a new position, is interpreted to mean that the German navy will give much greater attention to mines than heretofore, this being the first lesson learned from the Russo-Japanese war.

New York.—Coins belonging to a collector from Portland, Oregon, have been sold at auction here for nearly $7000. There were only 561 pieces in all, the prize of the collection being an American silver dollar coined in 1804. Collectors came from many cities to bid on this rare piece, and it fell into the hands of a Chicago man for $1100.

Washington.—There is evidence of keen rivalry among shipbuilders of the Atlantic and Pacific coasts over contracts for the battleship New Hamshire and the armored cruisers Montana and North Carolina. The navy department is in receipt of applications for plans and specifications. Some ten or twelve firms intend to submit proposals.

Omaha, Neb.—The Union Pacific has placed an order for a gasolene car for use in its local passenger service. The engine is of a new type, which has been perfected in the Omaha shops of the system after a couple of years of diligent experimenting. It will be capable of a sped of sixty miles an hour. If it proves the success that is anticipated, it will be introduced on all of the Harriman roads.

Rome.—The pope is very much satisfied with the steps taken by Archbishop Farley to secure a modification of church music in the choirs of the archdiocese of New York in accordance with the pontifical instructions. The pontiff also feels sure that the Americans who appreciate the liturgical chant will soon have a restoration of Gregorian music throughout the United States.

New York.—Through the efforts of Attorney Comstock the works of Balzac, Nordau, Flaubert, Rabelais, Boccaccio and some of the novels of Dumas, father and son, have been withdrawn from circulation in the Brooklyn public library. For the last month Comstock has been conducting an exceptionally vigorous campaign to banish pruriency and suggestiveness from the library shelves in Brooklyn.

Berlin.—Emperor William has designated Lieutenant General von Lowenfeld, of the emperor's military staff, and Imperial Adjutant General von Schmettow to represent him at the unveiling of the statue of Frederick the Great in Washington November 19. Both delegates named are descendants of officers of Frederick the Great. They will arrive in New York on the steamer Hamburg about November 13.

Roswell, N. M.—W. S. Montgomery was jailed here Saturday by Chief of Police Roscoe, who thinks he has a noted swindler in the toils. Montgomery is charged with having swindled seven people of Roswell out of $25 each on a California land sceme. It is said he would agree to locate them on timber claims for $25 each and to buy each claim for $1000 on arriving in California, also agreeing to supply a round trip ticket to California for $16.

Washington. — Postmaser General Wynn Saturday had a brief conference with Secretary Hay regarding the opening of the mail bags for the United States cruiser Cincinnati by Russian officials. The brief report on the subject, which has just reached the postoffice department, was given to the state department and will be included with the other papers relating to the seizure of American mails on the British steamer Calchas, for representation to the Russian government on the subject.

Appleton, Wis.—Co-eds of Lawrence university went to the football field Saturday wearing their college colors where they had no chance to flutter. Stockings—one blue and one white—twinkled radiantly from abbreviated skirts. As the legion of patriotic girls appeared on the field the band played legato music and a new legend in college history began to be written. Inspired by the spirit of the fair students, the football stars played like masters of legerdemain, running ends and bucking the line with such bewildering rapidity that it is alleged the eye could not follow the ball from point to point.

Chicago.—One case of smallpox has caused the vaccination of 1700 men employed at the stockyards, and more are to be treated. The vaccinations are only a precautionary measure and not because there is any danger of a spread of the disease. The 1700 vaccinated men were all employes of one company. Four physicians went through part of the packing plant, leaving behind cattle killers, sheep butchers, laborers and foreman with sleeves rolled up and arms "scratched."

INDIGESTION

"I was troubled with stomach trouble. Thedford's Black-Draught did me more good in one week than all the doctor's medicine I took in a year."—MRS. SARAH E. SHIRFIELD, Ellettsville, Ind.

Thedford's Black Draught quickly invigorates the action of the stomach and cures even chronic cases of indigestion. If you will take a small dose of Thedford's Black Draught occasionally you will keep your stomach and liver in perfect condition.

THEDFORD'S BLACK-DRAUGHT

More sickness is caused by constipation than by any other disease. Thedford's Black-Draught not only relieves constipation but cures diarrhœa and dysentery and keeps the bowels regular.

All druggists sell 25-cent packages.

"Thedford's Black-Draught is the best medicine to regulate the bowels I have ever used."—MRS. A. M. GRANT, Sneads Ferry, N. C.

A Combination Between Publishers

The . . . Explanation

The Los Angeles Times publishes an illustrated weekly magazine for which they charge $2.50 per year. Each number has from 28 to 32 large pages, equivalent to 120 magazine pages of the average size.

Its contents embrace a wide range of splendidly written articles—popular descriptive sketches, solid and thoughtful editorials, brilliant correspondence, health discussions, fashion topics, pictures, political cartoons and a multitude of subjects that are timely, interesting and instructive.

Our contract with The Times enables us to offer our publication and the weekly magazine for one year for less than the publishers charge for the magazine.

The Benefits You Receive

At practically no extra cost over the regular price of our paper you can have mailed to your address each week both publications — your home paper and the Los Angeles Times Illustrated Weekly Magazine.

This arrangement makes it possible for you to receive at regular intervals all the reading matter you can peruse.

The two papers will supply your reading wants—and will do it in a manner that will convince you that you have taken advantage of the greatest newspaper and magazine bargain ever presented.

The Times' charge for their publication is $2.50 per year. Our contract with them enables us to make the following offer to our readers:

The Los Angeles Times Magazin and the Republican Press One Year For $3

Ice Cream
Fresh Candies
Poporn Crisps

ROYAL BAKING POWDER CO., NEW YORK.

THE PUDDING CREEK BRIDGE

SAN FRANCISCO, October 19.—In answer to ihe statements contained in the recent issues of some of the newspapers of your county we desire to state the real facts of the mattsr, which will show any unprejudiced mind that our connection with the contract for the construction of the Pudding Creek bridge has been entirely honorable and that every detail of the contract complied with. The article contained in the recent issue of the Dispatch-Democrat, wherein that paper accuses us of having substituted pine lumber for redwood, we claim to be untrue in every detail. In the first place we were ordered about one year ago to prepare plans for the construction of the Pudding creek bridge by order of the board of supervisors. After we had prepared a a steel combination bridge plan for the location, protests were made by some of the tax payers at Fort Bragg who insisted that the board of supervisors of the county should encourage home industry as the county had an abundant supply of lumber and as there were a large number of men unemployed at Fort Bragg, and it was advocated to erect a wooden bridge in order that the local contractors could have a chance to bid as they knew little or nothing about the erection of steel structures. Their protest was favorably acted upon by the entire board who instructed us to prepare designs for a wooden bridge. This we accordingly did to the satisfaction of the board who, on receiving further protests from certain people at Fort Bragg, rejected our proposals and called for the submission of new dedesigns. Plans were submitted by W. Biggers, a young engineer of Fort Bragg in compliance with the requests and suggestions made by certain people at Fort Bragg. After considerable discussion by the board of supervisors Mr. Biggers' plans were adopted and bids called for, for the construction of the bridge. We, in response to the public notice to bidders, submitted an estimate and the board found that we were the lowest responsible bidders out of the five contractors who submitted bids. Two of the number were local men, Mr. Biggers from Mendocino and Mr. Southard from Fort Bragg, whose bids were found to be much in excess of the one submitted by our firm. The board, in strict compliance with the law, awarded the contract to us and caused to be prepared by the districtattorney a written contract whics is signed and which is on file at the court house at Ukiah together with the necessary papers, plans, specifications, etc. Subsequent to the placing of the order for this material with the Union Lumber company, we found that some defects existed in the plans, which tended to weaken the structure, and before proceeding further we called the board's attention to the errors. We found in the main span of the bridge that the diagonal braces called for 4x10 pieces whereas we suggested to have them replaced with 6x10 without any charge whatever. We also found that the sway braces of the trestle were specified to to be redwood instead of pine, something never before heard of in bridge construction where these members have considerable tensile strain, which could not be withstood with redwood in any comparison to that of pine. The board of supervisors wisely saw that the change was a benefit to the county and so placed itself on record in the minutes of the board as shown in minute book Fo. 12. page 104. The change was made solely that the strength of the bridge might be increased.

We deny the statement made by the Dispatch-Democrat that Supervisor Barnard used undue diligence in trying to have Healy, Tibbits & Co. secure the contract. On the contrary Mr. Barnard assisted local contractors in every way to secure the building of the bridge. We further deny that we were favored in any manner in securing the work as our bid was the lowest among five bids submitted and therefore we were entitled to the contract.

Referring to the pine timber which it is claimed was rejected after being placed on the site, it is in compliance with the conditions of the contract together with our special request to Mr. Biggers to reject all lumber not being in compliance with the terms of the specifications. This lumber was ordered from the Union Lumber company with the explicit instructions to deliver first class lumber and when it was found by Mr. Biggers that this lumber did not comply with the full letter of the terms of the contract, it was immediately returned to the Union Lumber company, who substituted material as ordered by us without any additional charge. We wish to state further that the Union Lumber company was most particular in selecting the lumber for the structure, the few sticks that were rejected amounting to but very little in comparison with the great quantity of material furnished for the structure. We wish to deny that any part of the old material taken from the Jug Handle bridge was used in the construction of the Pudding Creek bridge. We understand that there were a few sticks taken from the Jug Handle bridge and placed to protect the fill at one end of the bridge. This has nothing to do with our contract as it is being done by the county with its own men and has nothing whatsoever to do with us.

We would call your attention to the fact that we have constructed a large number of bridges in Mendocino county during the past ten years and our work shows itself to be of high class standard and the workmanship and design of the structures are as substantial if not better than any bridge work in this state. We can arrive at no other conclusions but what this public demonstration is gotten up by a few digrunted politicians in order to aid their favorite candidate in securing the official position to which he aspires, and we see no reason why we should be drawn into a controversy by the objections of a few dissatisfied politicians.

HEALY, TIBBITS & CO.

We run large, modern, well equipped shops employing several skilled cutters and tailors. We make to measure for men we never see, hundreds of suits and overcoats per annum. Our extraordinary facilities and volume of business enables us to practice great economy. For 17.50 to $35, which is no more than you pay for a ready made suit or overcoat, we will make your clothes to measure, just as you want them, and they will be better clothes than local tailors with their limited facilities will sell you for 100 per cent more money. Better investigate—write us for self-measurement and samples. Charles Lyons, the taylor, San Francisco.

COVELO, October 15.—The Dorcas Aid society of the Covelo Presbyterian church wish to express their sympathy for the relatives of Mrs. Hornbrook in their great bereavement at her death and to assure them that they also are grieved and feel her loss deeply.

She has been a cheerful and helpful member of our society since its organization and for some time president. She will be missed at all of our social gatherings and in the church and Sabbath school, having been identified with all of these and being one of the first white settlers in the valey. To old residents it will hardly seem like Round valley without her. She will also be remembered for her kindness and hospitality.

Contest Notice,

DEPARTMENT OF THE INTERIOR, UNITED States Land office, San Francisco, Calif., Oct. 13, 1904.

A sufficient affidavit having been filed in this office by Horace V. Scott, contestant, against Peter Hudson, his heirs and assigns and his estate, executors and administrators, and Indian allotment entry No. 5, made February 8, 1895, for SW ¼ of SW ¼, section 20, township 18 n, range 11 w, M. D. M. by Peter Hudson, contestee, in which it is alleged that in substance that said Peter Hudson died on or about Nov. 1, 1898; that he left him surviving no widow, heir, relation or assign whatever: that said Peter Hudson never lived upon the land during his lifetime, nor did he cultivate the same or any part thereof, nor did his heirs, relatives or assigns ever cultivate the same or any part thereof; nor was the said land ever used by Peter Hudson or any of his heirs for grazing purposes. That the said land and the whole thereof, has been unoccupied for more than three years last past and that said alleged absences from said land was not due to the employment of said Peter Hudson or any of his heirs, relatives or assigns in the army, navy or marine corps of the United States,

Said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on Tuesday, December 27, 1904, before the Register and Receiver at the United States Land Office in San Francisco, Calif.

The said contestant having, in a proper affidavit, filed October 8, 1904, set forth facts which show that after due diligence, personal service of this notice can not be made. It is hereby ordered and directed that such notice be given by due and proper publication.

SAN FRANCISCO SEAWALL ACT.

CHAPTER CCXI.

An act to provide for the issuance and sale of State Bonds to create a fund for the construction by the Board of State Harbor Commissioners of a seawall and appurtenances in the City and County of San Francisco; to create a sinking fund for the payment of said bonds; and providing for the submission of this act to a vote of the people.

(Approved March 20, 1903.)

The people of the State of California, represented in Senate and Assembly, do enact as follows:

Section 1. For the purpose of providing a fund for the payment of the indebtedness hereby authorized to be incurred by the board of state harbor commissioners for the erection of a seawall and appurtenances in the City and County of San Francisco, at a cost not to exceed two million dollars (which said seawall and appurtenances the board of state harbor commissioners are hereby empowered to construct in the manner authorized by law, and at a cost not to exceed said two million dollars), the state treasurer shall, immediately after the issuance of the proclamation of the governor, provided for in section ten hereof, prepare two thousand suitable bonds of the state of California, in the denomination of one thousand dollars each. The whole issue of said bonds shall not exceed the sum of two million dollars, and said bonds shall bear interest at the rate of four per centum per annum, from the time of the sale thereof, and both principal and interest shall be payable in gold coin of the present standard of value, and they shall be payable at the office of the state treasurer, at the expiration of nineteen years from their date, subject, however, to redemption by lot as in this act hereinafter provided. Said bonds shall bear date, the second day of January, A. D. nineteen hundred and five, and shall be made payable on the second day of January, nineteen hundred and twenty-four A. D. The interest accruing on such of said bonds as are sold, shall be due and payable at the office of the said state treasurer on the second day of January, and on the second day of July, of each year after the sale of the same; provided, that the first payment of interest shall be made on the second day of January, A. D. nineteen hundred and six, on so many of said bonds as may have been theretofore sold. At the expiration of nineteen years from the date of said bonds, all bonds sold shall cease to bear interest, and, likewise, all bonds redeemed by lot shall cease to bear interest as in this act provided, and the said state treasurer shall call in, forthwith pay, and cancel the same, out of the moneys in the San Francisco seawall sinking fund provided for in this act, and he shall, on the first Monday of January, nineteen hundred and twenty-four, also cancel and destroy all bonds not theretofore sold. All bonds issued shall be signed by the governor, and countersigned by the controller, and shall be endorsed by the state treasurer, and each shall have the seal of the state stamped thereon. Each bond shall contain a clause that it is subject to redemption by lot after the year 1914.

Sec. 2. Interest coupons shall be attached to each of said bonds, so that such coupons may be removed without injury to or mutilation of the bond. Said coupons shall be consecutively numbered, and shall be signed by the state treasurer. But no interest on any of said bonds shall be paid for any time which may intervene between the date of any of said bonds and the issue and sale thereof to a purchaser.

Sec. 3. The sum of one thousand dollars is hereby appropriated to pay the expense that may be incurred by the state treasurer in having said bonds prepared. Said amount shall be paid out of the San Francisco harbor improvement fund on controller's warrants duly drawn for that purpose.

Sec. 4. When the bonds authorized to be issued under this act shall be duly executed, they shall be by the state treasurer sold at public auction to the highest bidder for cash, in such parcels and numbers as said treasurer shall be directed by the governor of the state, under the seal thereof, after a resolution requesting such sale shall have been adopted by the board of state harbor commissioners; but said treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered; and he may, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, to such time and place as he may select. Due notice of the time and place of sale of all bonds must be given by said treasurer by publication in two newspapers published in the city and county of San Francisco, and also by publication in one newspaper published in the city of Oakland, and by publication in one newspaper published in the city of Los Angeles, and by publication in one newspaper published in the city of Sacramento, once a week during four weeks prior to such sale. The costs of such publication shall be paid out of the San Francisco harbor improvement fund, on controller's warrants duly drawn for that purpose. The proceeds of the sale of such bonds shall be forthwith paid over by said treasurer into the treasury, and must be by him kept in a separate fund, to be known and designated as the "San Francisco Seawall Fund" and must be used exclusively for the construction of seawalls and appurtenances thereto on the water front of the city and county of San Francisco. Drafts and warrants upon said fund shall be drawn upon and shall be paid out of said fund in the same manner as drafts and warrants are drawn upon and paid out of the San Francisco harbor improvement fund.

Sec. 5. For the payment of the principal and interest of said bonds a sinking fund, to be known and designated as the "San Francisco Seawall Sinking Fund" shall be and the same is hereby created, as follows: The state treasurer shall, on the first day of each and every month after the sale of said bonds, take from the San Francisco harbor improvement fund such sum as, multiplied by the time the bonds then sold and outstanding have to run, will equal the principal of the bonds sold and outstanding at the time said treasurer shall so take said sum from said San Francisco harbor improvement fund, less the amount theretofore taken therefrom for said purpose; and he shall place the sum in the San Francisco seawall sinking fund created by this act. Said state treasurer shall, on controller's warrants duly drawn for that purpose, employ the moneys in said sinking fund in the purchase of bonds of the United States, or of the state or California, or of the several counties or municipalities of the state of California, which said bonds shall be kept in a proper receptacle, appropriately labeled; but he must keep always on hand a sufficient amount of money in said sinking fund with which to pay the interest on such of the state bonds herein provided to be issued as may have theretofore been sold. And to provide means for the payment of interest on the bonds that may be sold and outstanding, said treasurer shall monthly take from the San Francisco harbor improvement fund, and pay into said seawall sinking fund, an amount equal to the monthly interest then due on all bonds then sold, delivered and outstanding. The board of state harbor commissioners are hereby authorized and directed by the collection of dockage, tolls, rents, wharfage and cranage, to collect a sum of money sufficient for the purposes of this act, over and above the amount limited by section two thousand five hundred and twenty-six of the Political Code of the State of California, between the first and the tenth day of November, in the year nineteen hundred and fourteen, and between the first and the tenth day of November of each year thereafter until the maturity of said bonds, the said treasurer shall, in the presence of the governor, proceed to draw by lots such an amount of bonds as shall be requisite to exhaust as nearly as may be the amount in said sinking fund at that time, and shall thereupon and before the tenth day of December following, give notice by public advertisement to be inserted twice a week for two weeks in two newspapers published in the city and county of San Francisco, and also in one newspaper published in the city of Oakland, and also in one newspaper published in the city of Los Angeles, and also in one newspaper published in the city of Sacramento, stating the number of bonds so drawn and that the principal of said bonds will be paid on presentation to the treasurer on or before the second day of January, following, and that from and after such last named date all interest upon bonds thus drawn shall cease and it shall be the duty of the treasurer as soon as said bonds so drawn by lot are surrendered to him and paid to cancel the same and the interest coupons thereon, and each year beginning with the year 1914 the said treasurer shall, in the manner aforesaid, proceed to draw by lot such an amount of bonds as shall be requisite to exhaust as nearly as may be the amount in said sinking fund, and proceed in the manner hereabove stated. After the payment of all of said bonds, the surplus or balance remaining in said sinking fund, if any there be, shall forthwith be paid into the San Francisco harbor improvement fund. At the time of the respective drawings by lot as aforesaid, and also at the maturity of said state bonds, said treasurer shall sell the United States or other bonds then in said sinking fund, at governing market rates, after advertising the sale thereof in the manner hereinbefore provided for the sale of bonds hereby authorized to be issued, and shall use the proceeds for the payment of such bonds as may be drawn by lot, and at the maturity of said bonds outstanding shall pay and redeem said matured outstanding bonds out of said moneys in said fund in extinguishment of said bonds on controller's warrants duly drawn for that purpose.

Sec. 6. The state controller and the state treasurer shall keep full and particular account and record of all their proceedings under this act, and they shall transmit to the governor an abstract of all such proceedings thereunder, with an annual report, to be by the governor laid before the legislature biennially; and all books and papers pertaining to the matter provided for in this act shall at all times be open to the inspection of any party interested, or the governor, or the attorney-general, or a committee of either branch of the legislature, or a joint committee of both, or any citizen of the state.

Sec. 7. It shall be the duty of the state treasurer to pay the interest of said bonds, when the same falls due, out of the sinking fund provided for in this act, on controller's warrants duly drawn for that purpose.

Sec. 8. This act, if adopted by the people, shall take effect on the thirty-first day of December, A. D. nineteen hundred and four, as to all its provisions except those relating to and necessary for its submission to the people, and for returning, canvassing, and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

Sec. 9. This act shall be submitted to the people of the state of California for their ratification at the next general election, to be holden in the month of November, A. D. nineteen hundred and four; and all ballots at said election shall have printed thereon, and at the end thereof, the words "For the San Francisco Seawall Act," and in a separate line under the same the words "Against the San Francisco Seawall Act," and opposite said lines there shall be left spaces in which the voters may make or stamp a cross to indicate whether they vote for or against the said act, and those voting for said act shall do so by placing a cross opposite the words "For the San Francisco Seawall Act," and all those voting against the said act shall do so by placing a cross opposite the words "Against the San Francisco Seawall Act." The governor of this state shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

Sec. 10. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appear that said act shall have received a majority of all the votes cast for and against it at such election, as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act, then the same shall be and become void.

Sec. 11. This act may be known and cited as the "San Francisco Seawall Act."

Sec. 12. All acts and parts of acts in conflict with the provision of this act are hereby repealed.

KILLED BY DYNAMITE.

Central City, Colo., Oct. 18.—Mrs. Gertrude Sachs, a widow, aged 32, was killed and ten boarders in her house seriously injured yesterday by an explosion in the kitchen range. Victor Frank, aged 28, is accused of having placed dynamite in the fuel and has been arrested on a charge of murder. He is said to have been jealous of Mrs. Sachs' boarders.

SHOOTS COMRADE.

Manila, Oct. 18.—Lieutenant William D. Pritchard, in a fit of insanity, shot and killed Second Lieutenant Fred L Dean. He then shot and killed himself. Both officers were attached to the Thirteenth Regiment of United States cavalry stationed at Camp Stotsenberg.

PACIFIC COAST NOTES

Visalia.—T. A. Elliott of this city finished harvesting a wonderful crop of grapes Saturday. He obtained 170 tons from ten acres. This is regarded as a record-breaker for the coast.

Seattle.—George T. Miles, about 40 years of age, and evidently a laborer shot himself through the head with a revolver Saturday while standing on the corner of Second and Union street. The doctors say he has no chance of recovery.

Honolulu.—Judge W. J. Robinson of the first circuit court Saturday sentenced E. S. Boyd, former land commissioner of Hawaii, to ten years' imprisonment at hard labor. Boyd was indicted last April on the charge of embezzling public funds. Pending an appeal. Boyd was admitted to bail.

Reno, Nev.—L. B. Adams of Salt Lake City, while suffering from the effects of a protracted spree, made a desperate attempt to commit suicide at Hazen Saturday. He threw himself in front of the flyer, which was running at a high rate of speed. He was thrown to one side by the cowcatcher but the wheels passed over both legs

Riverside.—Albert Wilson, the ten year-old son of a prominent real estate dealer of this city, was fatally wounded by the accidental discharge of a shotgun Saturday. The boy was pulling the gun out of a wagon while on a hunting trip when the accident happened. He received the full charge in the right breast. He was brought to this city and physicians say he will die.

San Jose.—Antonio Sousa, a seven year-old boy whose home was at Edenvale, was instantly killed Friday evening while on his way home from school by being run over by a wagon heavily loaded with grapes. He attempted to climb on the wagon to get some of the fruit, but fell and the wheels passed over him, crushing his life out. The jury exonerated the driver.

Sacramento.—The annual report of the state railroad commission for the year ending June 30, 1904, has been filed with the governor. The report shows that during the period covered the total number of miles of railroad operated in California was 5,494.34, an increase of 207.89 over the previous year. In the total number of accidents on the various roads the report says 329 were killed and 1772 injured.

Cheyenne, Wyo.—A terrific explosion occurred in mine No. 8 of the Union Pacificfi Coal company at Rock Springs Saturday. Seven miners were cut, bruised and burned, and five were taken to the Union Pacific hospital here. The explosion was caused by a miner who was carrying a can of fifty pounds of powder coming in contact with a live wire. The scene of the explosion was about one and one-half miles underground.

San Bernardino.—The scheme to operate traction engines for hauling borax from Death valley to Ivanpah has proved a signal failure, involving a loss to Borax King Smith of a goodly fortune. He conceived the unique idea of thus replacing twenty-mule teams, which for years had been an attractive feature of this immense desert traffic. In carrying out the details of the project he had a traction roadway laid out, reaching over 100 miles across the desert. It is said that Smith dropped over $100,000 in the traction project.

San Francisco.—An answer was filed Saturday to the complaint of Frank W. Galehouse, who brought suit against the Ancient Order of United Workmen to compel the payment to him of $2000 on the death benefit certificate of Frederick Galehouse, who died this year. In the first certificate, originally issued in 1878, the plaintiff was named as the beneficiary, being the decedent's adopted son. Mrs. Fanny M. Galehouse, the widow, states in her answer, however, that some months before her husband's death he obtained a new certificate, in which she is designated as the beneficiary, and so she claims the money.

Victoria, B. C.—Captain J. D. Warren, chief owner and master of the wrecked steamer Barbara Boscowitz, has returned here, leaving the members of the crew at Parsons bay to save what they can. The steamer is a total wreck, literally wrenched to pieces and listed so that it is impossible to walk her deck. The accident was due to a strong current, of which the captain was unaware. There was not the least excuse for the loss of life, which could not have occurred but for the panic among the Indians, who acted simply like wild men and women. A part of the machinery will be saved.

San Jose.—The San Jose and Los Gatos Interurban company Saturday was granted an injunction restraining Mrs. B. I. Merriman from interfering with the survey of the new electric road from this city to Palo Alto. Mrs. Merriman, who is the sister of Mrs. Winchester, the widow of the Winchester rifle inventor, owns property through which the line passes, and it is alleged that she has been pulling up the surveyors' stakes, and otherwise obstructing the work.

Oakland.—For several days Melvin J. Simonsen, the three-year-old son of J. Simonsen of 983 Fifty-sixth street, carried around in his stomach the metal figure of a donkey. The donkey was about an inch long and had been used as a watch charm, but not until Friday did the boy complain of any pain resulting from it. Then a physician removed it without much difficulty. Young Simonsen swallowed the watch charm in the presence of his little sister, who had presence of mind enough to inform her mother immediately. The boy was promptly dosed much against his will. In spite of the presence of the donkey he went about cheerfully without a qualm until Friday.
